Michael Gibson Gallery and the Angie Quick “Has Love Made You The Enemy” Exhibition

<https://www.gibsongallery.com/exhibitions/angie-quick-has-love-made-you-the-enemy/>

Angie Quick's 3rd solo exhibition at the gallery for the month of April. In her new suite of lush canvases, Quick explores expressions of intimacy in both private and public spaces. Figures weave and contort within sumptuous interiors filled to the brim with mirrors, pillows and plants. It is painting at its most joyful, bold, gestural and fearless.

Angie Quick (b. 1989) is an artist based in London, Ontario. Her practice encompasses painting as well as performance. Quick's work explores tenderness and intimacy both historically and

contemporaneously. Her work is in the collections of Museum London & McIntosh Gallery at Western University as well as countless Canadian private collections.

Angie Quick will be present for her Opening Reception 7-9pm on Thursday, April 3.

TAP Centre for Creativity and the Wyn Gelynse
"Community Portraits 2023-2024, Almost Julli and Almost Vince" Exhibition

Almost Julli, Mixed Media on Paper 37"x25"

Community Portraits 2023-2024

Wyn Geleynse

"Almost Julli" and "Almost Vince"
will be on display in LAB 203 from
April 1 - April 26, 2025.

TAP Centre for Creativity, LAB 203
203 Dundas St. London, ON.

Join us for the opening reception April 3
from 5pm-7pm. The artist will be present.

Originally conceived as a simple exercise in painting the portrait of a close friend and fellow artist, Geleynse saw a bigger project as more friends and acquaintances from his walk in life — from the person who prepares and serves his coffee, colleagues from the arts community, a shop keeper at his local stereo shop, co-workers at the Mission Store where Geleynse volunteers twice a week, the woman who cleans the building that houses his studio — various members of Geleynse's community stepped forward to be caught in paint on his paper canvas. With forty-one portraits, a series was born from that simple exercise.

This series of portraits is presented one or two at a time for a month, beginning at Milos Craft Beer Emporium last September to December and now at TAP Centre for Creativity. It's an unusual method to display an exhibit but one that almost mimics the way we encounter our friends and cohorts and acquaintances in daily life, a pleasant reminder that our communal time together is slightly fragmented.

Wyn Geleynse will be present for the Opening Reception 5-7pm on Thursday, April 3.
